Dear Bruce:

After extremely careful deliberation, we have determined that we will not extend a publishing contract for Magic Castle. The product shows good planning in interesting game play and user interface.

We appreciate your patience in our deliberations. As a new publisher, we have been carefully analyzing our market and forming our position. It has been most difficult to reject projects such as yours that show promise for commercial success.

We thank you for the interest and confidence you have expressed in Origin Systems, and we wish you every success.

Sincerely,
